TEST CERTIFICATE

Customer: In-house test Tungum Ltd Number One Ashchurch Parkway Tewkesbury Glos GL20 8TU	Customer O/No: N/A – in-house test Our Ref: TC101 Drg/Part No: Biox 2 Description: Flushing Agent Tested by: Sean Hammond Date Supplied: 15/4/10
---	---

INTRODUCTION

BIOX 2 is used as a flushing agent for general hydraulic and dive systems.

Testing was carried out to check there are no compatibility issues when it comes into contact with Tungum Alloy.

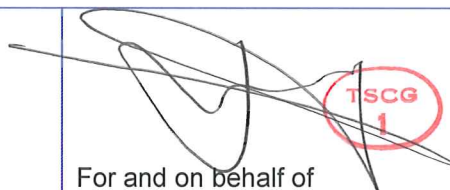

TEST METHOD

The solution was tested by semi-submerging 2 x 4" lengths of Tungum alloy tube in neat solution at ambient temperature for a period of 96 hours.

CONCLUSIONS

The tubes were removed from the solution and dried. Visual inspection revealed no detrimental effect to the surface of the tubing and the overall finish was considered acceptable.

Date: 21st April 2010
